

Meiosis

An interactive educational application

By Cole Hudson

For all types of learners

- This app has been designed for all types of learners: *Visual, Interactive, and Auditory*. It provides photos, audio, and an interactive game to help ingrain the knowledge.
- Because this app was built with Apple's *Human Interface Guidelines* in mind, it is intuitive for anyone familiar with the platform.

Built for IOS

- This app is built for iPhone and iPad, some of the most popular electronic educational platforms available. This helps to make sure that *Meiosis* will be readily accessible on the App Store.
